2. As will be seen from the enclosed ferro print of the survey plan, the extent of the Cemetery land required is 242' X $\frac{15+9}{2}$ or 323 square yards. The value of the same calculated at two rupees per square yard will amount to Rs.646/-.

3. The existing plain compound wall with untidy buttresses and the Lych gate will be demolished and in this stead an ornamental compound wall to be in keeping with the rest of the improvements on this important road will be reconstructed by the Trust Board at their own cost setting back the same from the new alignment of the road line by 12 feet as shown in the enclosed plan of the Cemetery.

Estimated at 1000/-

4. Regarding the rooms to be newly built on either side of the Lych gate at the suggestion of the Chaplain, the estimated cost of the same come to Rs.925/- as per estimate enclosed. The amount of Rs.646/- being the compensation for the land can be utilised for this purpose, the balance of the cost being adjusted by the Authorities of the Cemetery or as Government may be pleased to direct.

5 As the Cemetery land in question is urgently required the road work, having rapidly advanced, I solicit the favour of

N O T E.

The road from the North Gate Square of the Government House, northwards, is becoming more and more important every day. The North Gate Square itself has been improved. An extension is being laid out at the North end of the City called "Narasimharaja Mohalla." This road is one of the main roads leading to it. Also it is the road used by distinguished guests of His Highness the Maharaja in visiting the Historic Town of -- Seringapatam and the famous falls at Sivasamudram.

The realignment of this road with a neat curve, with foot-paths and avenue on either side of it is under rapid progress. A portion of the cemetery compound to a width of 15' on the Southern side of it and 9' on the North is in the way of the improvements contemplated - This portion if kindly permitted will be acquired and used for the foot-path as shown in the accompanying blue print.

The present compound wall of the cemetery will be replaced by an ornamental one. The existing Lych gate will be dismantled and a fresh one built, using the

same wood, setting back the same by 12' from the new alignment of the road line. A cloak room one one side of the gate and a tool room on the other will also be provided.

The work being of a very urgent nature favour of early approval will be much appreciated.
